

### Warren McGee's Northern Pacific

Produced by Northern Pacific Railway Historical Association

Warren McGee is a historical treasure, famous for slide shows at the NPRHA conventions. His narration is included, along with 143 of his best NP-related images, 134 in color, from the 1950s through the early 1990s. His descriptions of his 39-year career on the Northern Pacific and his love of Montana are 'classic McGee.' With limited eyesight, Warren's recall of facts over his 90+ years is incredible. He recalls dates, mileposts, names, numbers, as if he were reading from a book. But the best part is his ability to add very funny comments along with all the facts, making this program very entertaining. A booklet with full captions for all images is included.

### George Winston

#### Montana A Love Story

A beautiful collection of original compositions, traditional songs and music from a variety of well-known songwriters including Philip Aaberg, Frank Zappa, Sam Cooke among others. George has combined the three distinct influential elements of the changing of the seasons, different topographies, and sociological influences into a single work that evokes a familiar image. **\$20.95 CD**

### Philip Aaberg

#### Blue West

from the liner notes: "This is a blues record...maybe not a "pure" blues record by some definitions or store labels, but it's MY blue record...a Montana blues record. I hope you smell sagebrush, see the Big Sky, hear the train, and feel the river...before you sit down in your nearest friendly roadhouse to listen to the piano picker." Philip Aaberg. **\$20.95 CD**

### Montana Mandolin Society
